

FIRST BLUSH CHERRY

(*Prunus* 'JFS-KW14' PAF)

Fragrant, bright, double-pink blooms smother the stiffly upright branches of this petite, very narrow flowering cherry in spring. Disease-resistant, dark green summer foliage turns bright orange red in autumn. Mature height and spread in 20 years is 25' x 12'. USDA Zone 5. A new introduction of J. Frank Schmidt & Son Co. <http://www.jfschmidt.com/pdfs/firstblushcherry.pdf>
